Print sizes in between are interpolated from the closest size. Normal printing includes basic manipulation to include burning, dodging, sharpening, etc. Computer time for changes and manipulations beyond normal printing will be billed by a price range quote based on \$50.00 per hour of computer time. An example might be removing powerlines or background changes. Large quantity runs by quote.

There are multiple paper choices under each category. Ask to see samples. Special papers may be possible for large jobs. To find square footage multiply length x width and divide by 144.
